YOUR CLINICAL PRACTICE DAY

AT THE
ANNUAL WINTER CLINIC

ROYAL YORK HOTEL

Thursday, November 22, 1962

PRESIDENT'S FOREWORD

The Academy of Dentistry presents with pleasure the program of our Annual Winter Clinic, held on Thursday, November 22nd, 1962, at the Royal York Hotel, Toronto. A cordial invitation is extended to all dentists in Ontario.

Under the capable chairmanship of Dr. Bob Grainger, the Committee has an unusually interesting program organized for your edification.

Our profession's active involvement in public health measures should make our participation in all activities which will make us better equipped to render our profession service a prime requisite. This day's convention will more than justify all requirements, not only scientific but will also be an opportunity for one and all to renew and strengthen old friendships.

The Toronto Dental Nurses' and Assistants' Association is as usual conducting a meeting on Winter Clinic day. Please encourage your nurse or assistant to attend and benefit from her Association's excellent program. She will find a warm welcome awaiting her.

We wish for all our Academy members and guests a most helpful and fraternal day.

J. H. MULLETT,
President.

BRING YOUR PROGRAM!

GENERAL INFORMATION

1. Registration desks will be located on the Convention floor.
2. Any dentist practising in the Metropolitan Toronto area who has not affiliated with the Academy may make application to do so at the registration desk. The annual fee for membership in the Academy of Dentistry is \$15.00.
3. Any Fellow of the Academy of Dentistry may attend the Annual Winter Clinic upon payment of the Winter Clinic registration fee of \$15.00. This fee includes luncheon and dinner tickets.
4. Dentists practising outside the Metropolitan Toronto area are again invited to avail themselves of Winter Clinic registration, for which the fee is \$15.00, which includes luncheon and dinner tickets.
5. Dental Hygienists wishing to attend the Winter Clinic may do so upon payment of a \$5.00 registration fee, which will include a luncheon ticket.
6. Members wishing to purchase extra luncheon or dinner tickets for friends may do so at the registration desk.
7. Badges must be worn for admittance to all clinics.
8. Winter Clinic registration permits the holder to attend the morning and afternoon Group Clinics and the evening Table Clinics and Commercial Exhibits without additional fee.
9. There are a limited number of rooms available at the Royal York Hotel for out of town members. For reservations write to Academy of Dentistry, 230 St. George St., Toronto 5, Ont., at least two weeks prior to the Winter Clinic date.
10. The Toronto Dental Nurses' and Assistants' Association is again conducting a Winter Clinic program. All nurses and assistants are requested to register at Parlour C, on the Convention Mezzanine. Program on Page 19.

GROUP CLINIC DETAILS

"The Best in Bridgework"

HUGH COOPER, JR., D.D.S., B.S., M.S., Ann Arbor, Michigan

Synopsis: A review of the planning and operating procedure designed to make the dentist more efficient in his practice and to provide the patient with fixed bridgework that will stand the test of time and function. In contrast, Dr. Cooper discusses some of the common causes of failure of fixed bridgework. Stressed are the basic occlusal, periodontal, and mechanical factors which are vital to functional oral mechanisms.

Biography: Dr. Cooper graduated from University of Michigan with a Bachelor of Science degree and then studied dentistry, graduating in 1947. He obtained his Master of Science in 1954 at the Ann Arbor School. He is currently Assistant Professor of Crown and Bridge at University of Michigan and a member of the Francis B. Veader Society of Crown and Bridge Prosthodontics, and of the Omicron Kappa Upsilon Honour Dental Society. Dr. Cooper is author of a manual on Crown and Bridge Technique.

PLACE — TERRITORIES ROOM, Main Mezzanine

TIME — 9.30 to 11.45 a.m. — *Chairman*, DR. W. D. CAVANAGH
2.30 to 4.45 p.m. — *Chairman*, DR. JAMES SIM

"Undamming the Dam — It's Practical"

G. CAMERON ADAMS

D. BLAKE McADAM

EDWARD R. BILKEY

FRANK W. TROPEA

GORDON W. JOHNSTON

Synopsis: The clinic will give indications and advantages of the use of rubber dam for operative dentistry. The panel will demonstrate in four quadrants of the room, the standard application and some deviations. Manikins will be available so that the audience can try applications and obtain assistance from the panel. This clinic is an innovation toward more practical teaching of a technique by audience participation. All panel members have been or are members of the operative department at the University of Toronto and have modestly declined to have their biographies included in the program.

PLACE — MANITOBA ROOM, Main Mezzanine

TIME — 9.30 to 11.45 a.m. — *Chairman*, DR. R. O. GREEN

"How High is Your Patient's Dental I.Q.?"

PETER M. BECK, D.D.S., Toronto

Synopsis: Have you ever wondered how much appreciation a patient has for good dentistry? We must admit that the desire for good dentistry varies greatly among patients. This presentation will suggest how you can determine your patient's appreciation and how to educate him to accept better types of treatment.

Biography: Dr. Beck is a University of Toronto graduate (1949), and is now on Faculty staff as demonstrator in Oral Diagnosis and Operative Dentistry. He holds membership in the International Dental Study Club, the New York State Academy of Dental Practice Administration, and the Niagara Peninsula Study Club for Practice Administration.

PLACE — MANITOBA ROOM, Main Mezzanine

TIME — 2.30 to 4.45 p.m. — *Chairman*, DR. MURRAY BUCHMAN

"New Bids to Better Full Lower Dentures"

WILFRED D. CLARK, D.D.S., Hamilton

Synopsis: Dr. Clark will explain a number of practical "tricks of the trade" in full denture construction which he has developed over many years in the practice of prosthetic dentistry.

Biography: Dr. Clark graduated from the University of Toronto in 1921 and has taken post graduate courses at Indiana, Ohio State, and Tufts Dental Schools. He is a past president of the Hamilton Dental Association, a Fellow of the American College of Dentistry, and a member of the American Prosthodontic Society and the Equilibrium Society.

PLACE — QUEBEC ROOM, Main Mezzanine

TIME — 10.45 to 11.45 a.m. — *Chairman*, DR. E. DOWNTON

3.45 to 4.45 p.m. — *Chairman*, DR. J. PERDICARIS

"Practical Endodontics"

STEPHEN P. KLIMASZKO, D.D.S., Hamilton

Synopsis: Dr. Klimaszko will give a practical discussion of the endodontic aspects of —

1. Patient Education
2. Diagnosis
3. Selection of Cases
4. Basic Principles of Endodontic Procedures
5. Review of Some Interesting Cases
6. Review of Endodontic Problems
7. New Developments

Biography: Dr. Klimaszko is a graduate from the University of Toronto (1944) and has taken post graduate courses at University of Pennsylvania, Ann Arbor, Ohio State, Columbus, Detroit and Toronto. Dr. Klimaszko is a past president of the Hamilton Endodontic Study Club, a member of the Toronto Endodontic Study Club, a Director of the Hamilton Dental Association, and a member of the American Association of Endodontics. He is a busy clinician and President of the Ukrainian Orthodox Church in Hamilton.

PLACE — ALGONQUIN ROOM, Main Mezzanine

TIME — 9.30 to 10.30 a.m. — *Chairman*, DR. PETER CURRIE
2.30 to 3.30 p.m. — *Chairman*, DR. R. FINLAYSON

"Examination and Diagnosis for Children"

NORMAN LEVINE, D.D.S., Toronto

Synopsis: This discussion will illustrate how a thorough examination of any child and subsequently the proper diagnosis and case management necessitates an accurate appraisal of the child's past as well as his present emotional, physical and dental development.

Biography: Dr. Levine graduated with a Bachelor of Arts degree and D.D.S., at the University of Toronto. In 1962 he completed the Diploma Course in Paedodontics and is on the staff of the Paedodontic Department at the U. of T. He is also on the dental staff at the Hospital for Sick Children, and has published several papers in the field of children's dentistry.

PLACE — BRITISH COLUMBIA ROOM, Main Mezzanine

TIME — 9.30 to 10.30 a.m. — *Chairman*, DR. R. FREEMAN
2.30 to 3.30 p.m. — *Chairman*, DR. J. FREEMAN

"A Practical Approach to Gold Foil"

DONALD E. LINDSAY, D.D.S., Toronto

Synopsis: Gold foil is highly cohesive, readily adaptable to cavity walls, resistant to corrosion, withstands interproximal and occlusal wear, and is free from excessive expansion or contraction. These characteristics make it one of the most serviceable restorative materials available. Many more dentists would employ it if taught simple, direct technique that requires a mineral armamentarium. With the help of a capable assistant, the gold foil can be manipulated rapidly. Coloured slides will be used to illustrate the use of an assistant when placing gold foil restoration.

Biography: Dr. Lindsay is a University of Toronto graduate (1952) and has attended post graduate courses at Northwestern and Pennsylvania Universities in operative dentistry. He is secretary of the Study Club for Practice Administration and a member of the American Academy of Gold Foil Operators.

PLACE — ALBERTA ROOM, Main Mezzanine

TIME — 9.30 to 10.30 a.m. — *Chairman*, DR. N. BOLJKOVAC
2.30 to 3.30 p.m. — *Chairman*, DR. A. M. ADAMS

"Occlusal Adjustments by Grinding"

WILLIAM G. MCINTOSH, D.D.S., M.Sc.D., Toronto

Synopsis: This presentation will attempt to outline the main reasons for contemplating occlusal adjustment by grinding, the principles involved and the indications. Centric occlusion will be emphasized; diagnosis of centric malocclusions will be discussed and methods of adjustment suggested.

Biography: Dr. McIntosh is a University of Toronto graduate. He obtained his D.D.S. in 1939 and his M.Sc.D. in 1957. He is Associate Professor of Periodontics at U. of T., past president of the Canadian Dental Association and of the Canadian Academy of Periodontology, and is a member of the American Academy of Periodontology.

PLACE — BRITISH COLUMBIA ROOM, Main Mezzanine

TIME — 10.45 to 11.45 a.m. — *Chairman*, DR. C. WHITMAN
3.45 to 4.45 p.m. — *Chairman*, DR. B. CRYSTAL

"Oral Surgical Procedures of Aid to Prosthodontics"

PETER T. SMYLSKI, D.D.S., Hamilton

Synopsis: Various surgical procedures will be described which are helpful in difficult dental prosthetic situations. The need for conservation of bone in removing roots and discussion of treatment of gross malformation of the jaws such as prognathism will be included.

Biography: Dr. Smylski obtained his D.D.S. at the University of Alberta in 1940 and his Diploma in Oral Surgery and Anaesthesia at the University of Toronto. Dr. Smylski is an Associate on the teaching staff at U. of T. and is past president of the Hamilton Dental Association. He is chief of the Dental Department in Hamilton General Hospital, and is a member of both the Canadian Society of Oral Surgeons and the American Society of Oral Surgeons.

PLACE — ALBERTA ROOM, Main Mezzanine

TIME — 10.45 to 11.45 a.m. — *Chairman*, DR. A. A. ANTONI
3.45 to 4.45 p.m. — *Chairman*, DR. A. BROWN

"Radiology in General Practice"

DONALD C. TESKEY, D.D.S., Toronto

Synopsis: A discussion of the interpretation of various radiographic appearances commonly encountered in the general practice of dentistry. Slides illustrating some aspects of interpretation, theory and radiographs of some common normal and pathological conditions will be shown. Emphasis will be placed on recognition of normal anatomical variations.

Biography: Dr. Teskey graduated from the University of Toronto in 1951, and is presently an Associate in the Radiology Department at the Faculty of Dentistry there. He is treasurer and chairman of the Finance Committee of the Canadian Mental Health Association, South Peel Branch. Dr. Teskey is a member of the Toronto Radiodontic Study Club and is on the editorial staff of Oral Health as radiology consultant.

PLACE — QUEBEC ROOM, Main Mezzanine

TIME — 9.30 to 10.30 a.m. — *Chairman*, DR. V. A. HERRON
2.30 to 3.30 p.m. — *Chairman*, DR. G. T. ROWNTREE

"Audio Analgesia Today"

DONALD M. WALLACE, D.D.S., Toronto

Synopsis: Audio analgesia has been used for several years. Some of the profession use it with such satisfaction that it has become a necessity to them and their patients. Because some have had only qualified success an attempt will be made to clarify its use by practical tips and discussion of personal experience.

Biography: Dr. Wallace graduated from the University of Toronto in 1943 and is presently chief of the Dental Department at Scarborough General Hospital. Aside from his busy professional career, he has found time to be president of the Scarborough Rotary Club.

PLACE — ALGONQUIN ROOM, Main Mezzanine

TIME — 10.45 to 11.45 a.m. — *Chairman*, DR. E. G. BERTRAND

3.45 to 4.45 p.m. — *Chairman*, DR. R. E. ECHLIN

"Technician-Dentist Problems, How to Avoid Them"

MR. C. E. SPENCE

MR. J. C. GERRARD

MR. J. MATERA

MR. D. LEY

Synopsis: This clinic will deal with technical problems encountered by the profession in dealing with their dental laboratory. Examples of problem cases will be shown and discussed, and suggestions will be made to improve relations between dental laboratories and dentists. This panel is presented by the Dental Laboratories Association of Canada, and is expected to be one of the highlights of the day.

PLACE — SASKATCHEWAN ROOM, Main Mezzanine

TIME — 2.30 to 3.30 p.m. — *Chairman*, DR. J. DAVIDSON
